Telephone

(not included)

Modem

This Belkin Pro Series Broadband In-Line Filter maximises the performance of your DSL (Digital Subscriber Line) and HPN (Home Phone Network) services. It creates clearer voice communications and prevents interference by separating high-frequency DSL transmissions from phone signals. A socket for isolating low-frequency voice signals ensures the cleanest network performance with fast, error-free data transfers. This product is designed to be used with any computer connected to a broadband socket.

Directions for Use:

1. Connect the BT phone plug of the product into the wall socket.
2. Connect your telephone's plug into the socket labelled "Phone".
3. Connect your DSL modem's plug into the socket labelled "DSL/HPN".

Belkin Lifetime Product Warranty

For the life of the product, Belkin warrants that this product shall be free of defects in design, assembly, material, and workmanship (free replacement).
