## Wireless G+ MIMO Modem Router

### Share your broadband ADSL connection wirelessly

### What is Wireless G+ MIMO?

Wireless G+ MIMO (Multiple Input Multiple Output) is based on a smart antenna technology that builds upon the widely deployed 802.11g standard by increasing speed, coverage, and reliability of wireless systems. Wireless G+ MIMO is ideal for users looking for greater range and faster speeds for downloading music from the Internet, sharing photos, and gaming online.

Using a Belkin Wireless G+ MIMO Notebook Card with an existing Wireless G network will result in 20% better range. Work farther and better from your favorite hotspot.

### Benefits

#### Up to 1,000 ft. of wireless range

Belkin G+ MIMO delivers the industry's best wireless coverage, extending your range with improved reliability and fewer drops

#### 10x the wireless speed

10 times faster than 802.11b and double the speed of 802.11g

#### Guaranteed interoperability

G+ MIMO is Wi-Fi® certified and seamlessly interoperates with a mixture of Belkin's G+ MIMO, Pre-N, and legacy 802.11b/802.11g devices

#### Improves performance of legacy

#### 802.11g and 802.11b networking devices

In mixed networking environments, Belkin G+ MIMO products increase 802.11g and 802.11b performance up to 20%

## Technical Specifications

### System Requirements

Broadband Internet connection with RJ-11\*  
 At least one computer with an installed network interface card  
 TCP/IP networking protocol installed on each computer  
 Internet browser  
 \*Contact your local Internet Service Provider (ISP) for ADSL service

**Standards Supported** IEEE 802.11b  
 IEEE 802.11g  
 IEEE 802.3  
 10 Base-T Ethernet (LAN)  
 IEEE 802.3  
 100 Base-T Fast Ethernet (LAN)

**Operating Range** Indoor: 500ft\*  
 Outdoor: 1000ft\*  
 \*Distance and connection speeds will vary depending on your networking environment.

**Security** WPA  
 WPA2  
 WEP 64-bit & 128-bit  
 Double Firewalls: NAT and SPI  
 MAC Address Filtering  
 Security Log

**LAN Protocols Supported** TCP/IP, UDP, CSMA/CD, DHCP, AppleTalk, NetBEUI

**ADSL Protocol Supported** PPPoE (PPP over Ethernet)  
 PPPoA (PPP over ATM)  
 Dynamic IP (1483 Bridge)  
 Static IP (IPoA)

**VPN Support** PPTP, L2TP, PPTP/L2TP VPN pass-thru  
 One tunnel to each VPN server

**Management** Password protected browser-based

**Maximum Users:** 253 (LAN) 32 (WLAN)

**Ports** ADSL port: 1 x RJ11  
 LAN port: 4 x RJ45  
 Power: 1 x DC input jack  
 Reset: 1 x reset button

**LEDs** Power, ADSL, Internet, WLAN, LAN (1,2,3,4)

**Warranty** Manufacturer's Lifetime Warranty

**Technical Support** Free Local Technical Support
