**TuneTalk™ Stereo** for iPod® video

Create high-quality stereo recordings with your iPod video

Now you can record memos, lectures, interviews, or conversations with two high-quality omnidirectional microphones. Review your audio notes later by using your earbud headphones or computer. Copy recordings to your desktop or notebook computer for storage, editing, or to send via email. Your iPod device's abundant storage capacity lets you store hundreds of hours of audio.

No software to install—support is already built into the iPod.
