Package Includes
ADSL, ADSL2 Modem with Wireless G Router
RJ11 Phone Line Cord
RJ45 Ethernet Networking Cable

System Requirements
Active ADSL connection with RJ11 (via filter)*
At least one computer with an installed wireless network interface card or adapter
TCP/IP networking protocol installed on each computer
Internet browser

Standards
IEEE 802.11b
IEEE 802.11g
IEEE 802.3 10Base-T Ethernet
IEEE 802.3 100Base-T Fast Ethernet

Operating Range
Up to 60m*

Power Adapter
User Manual CD
Quick Installation Guide
Registration Card

Security
WLAN: 64-bit WEP, 128-bit WEP, WPA-PSK, WPA
SPI Firewall, MAC Address
Protocols Supported
ISP: PPPoE, PPPoA, 1483 Bridged Dynamic/Fixed IP, 1483 Routed
LAN: CSMA/CD, TCP/IP, UDP, AppleTalk™ and DHCP (client and server)

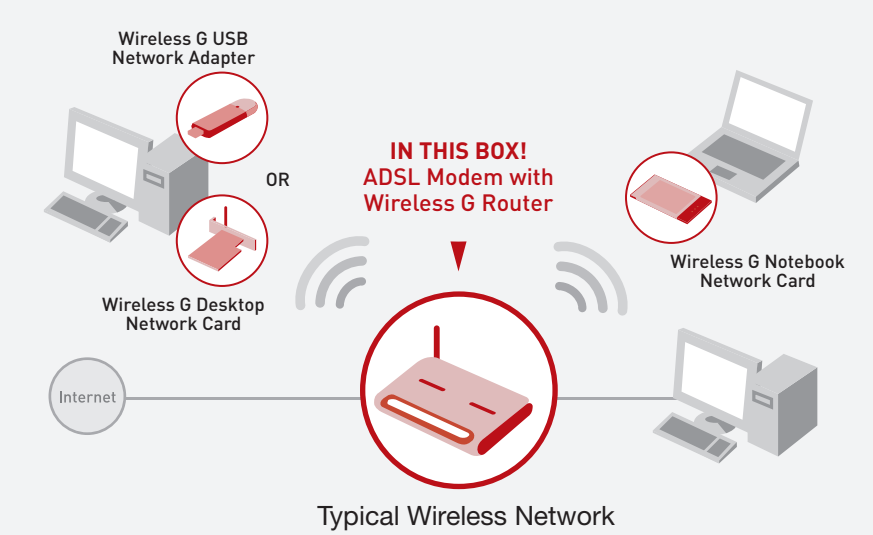

VPN Support
PPTP, L2TP, and IPsec pass-through
Management
Password protected, browser-based
Maximum Users: 253 (LAN), 32 (WLAN)

Ports
4 10/100Base-T auto-sensing and auto-uplink RJ45 (LAN)
1 RJ11 port (ADSL)

LEDs
ADSL, Wireless, LAN (1, 2, 3, 4), Power

Compatible with:
802.11b
802.11g

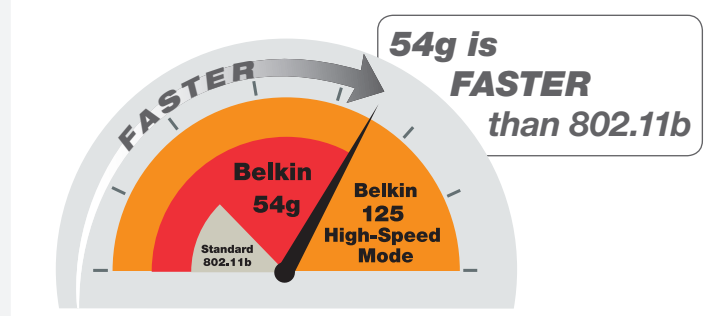

WiFi CERTIFIED

Share your broadband Internet connection

Here's what it does
Belkin networking offers this one-box solution that lets you share your ADSL Internet connection, files, and peripherals—without cables. It combines two essential networking functions in one innovative product—an ADSL Modem with a 4-port wireless router. Operating at wireless speeds up to 54Mbps, the ADSL Modem with Wireless G Router operates on the 802.11g wireless Ethernet standard.

This standard is backward-compatible, so you can use it in combination with existing 802.11b Wi-Fi® networks. Your Router also features an integrated 4-port 10/100Base-T Ethernet switch so you can connect your wired computers easily.

- Here's what you need**
- For Desktop Computers**
A Wireless G Desktop Network Card or Wireless G USB Network Adapter connects a desktop computer to your wireless network.
 - For Laptop Computers**
A Wireless G Notebook Network Card or Wireless G USB Network Adapter connects a notebook computer to your wireless network.

54 Mbps
802.11g 2.4GHz • Wireless

- Benefits**
- Allows you to access and share your ADSL Internet connection, data files, and network peripherals without wires
 - Transfers data at speeds up to 54Mbps using the 802.11g wireless standard
 - Features advanced security modes, including WPA Pre-Shared Key, WPA (Radius Server), 128-bit WEP, and 64-bit encryption
 - Protects your network from outside intrusions by hackers using NAT and SPI firewalls
 - Allows you to connect up to 4 wired computers to your network with an integrated 10/100Base-T Ethernet switch
 - Works with and PCs and Macintosh® computers
