

PureAV™ DVI Flat Panel A/V Cable 16'

Engineered to deliver the full potential of your home cinema components, PureAV Silver Series Interconnects capture the true sound and image experience of today's high-tech music and movies. Whether your hardware is analogue or digital, our audiophile-grade materials and proprietary technology accurately transmits each detail for the best possible audio video performance.

Description:

Digital Visual Interface (DVI) DualLink provides the brightest, most accurate colours and sharpest detail by transferring data in pure digital form to deliver true high-definition, all-digital video. To obtain the highest possible resolution from DVI technology, a dual-link, 24-pin connection is required. Dual-link provides the convenience of backward compatibility with AV hardware that is single-link-enabled only.

Advantages:

- Integrated strain relief, protects against wire damage for consistently high -quality video
- Non-slip rubber grip and integrated colour coding, provide comfort and ease of install
- 24k gold-plated connectors create precise contact for low loss
- Ferrite inductor block, protects against unwanted interference
- Impedance -matched construction, reduces loss and increases bandwidth
- 99.99% oxygen-free, solid -copper conductors and high -purity, silver solder joints, drastically reduce signal distortion for unrivalled video clarity
- Abrasion -resistant, flexible PVC jacket, maintains integrity, even when bent
- Five-layer shielding, isolates from outside noise for superior clarity
- Precision -formulated polyethylene dielectric material, maintains stronger signals that yield superior sonic and video accuracy
- Silver-plated conductors, deliver best high -frequency response for optimal resolution
- Belkin Lifetime Product Warranty
