

## USB 7-Port Hub - F5U027u

Connecting several USB devices has never been easier, thanks to the Belkin 7-port Hub. If you have outgrown the standard 2- or 4-port hub, the 7-Port Hub is the answer. Expand to 14, 21, or more ports by stacking, without taking up additional desktop space. Simply attach your USB devices to the hub for instant, boot-free connections to as many as 127 devices. With advanced power management technologies from Belkin, your USB hub protects your equipment by evenly distributing current to all the ports. Instantly add seven USB devices to your computer using a single cable to save space on your desk. It's a great docking station for your laptop. Attach all your USB peripherals.

### Product Features:

---

- Expands a single USB port to 7 for endless USB potential.
- Daisy chain more hubs for a total of 127 USB ports. Incredible!
- Simply plug in and use, and since it's USB, no rebooting is required.
- Front panel lighting allows for easy monitoring of port and power activity.
- Belkin Lifetime Warranty
- Compatible with Windows®; 95 rev. B, Windows®; 98, Windows®; 2000, Windows ME®; and Windows®; XP.
- Supports all high-, full- and low-speed USB devices (USB 1.1 data-transfer rates)
- Includes a Belkin Pro Series USB Device cable for a quality connection.
