

Pro Series IEEE 1284 Parallel Printer Cable (A/C) - 1.8M (6 feet) - F2A045b06

You've purchased the printer of your dreams, but a faulty printer cable keeps sending it error filled data. This Belkin Pro Series IEEE 1284 printer cable will keep that dream machine error free.

This Pro Series male DB25 to male Micro Centronics 36 Pin Cable links your IEEE 1284 printer to your PC. Featuring our exclusive wiring design and cable technology that guarantees optimal performance and data transfer.

Product Features:

- Ten times faster data transfer when compared with non-compliant IEEE 1284 cables.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- IEEE 1284 compliant printer cable.
- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- A Belkin certified lifetime warranty.
- Oversized ergonomic thumbscrews make installation a breeze.
- Flextec PVC rubberized cable jacket is extremely flexible for use in tight areas.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Double shielded braid and foil to meet IEEE 1284 specifications, and ensure compliance with FCC requirements, reducing EMI/RFI.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission.
- Ground indents provide excellent conductivity and retention with mating conductors.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
- 18 tightly woven conductor pairs have each data line paired with a ground line to minimize cross talk, noise and other interference, ensuring error-free printing.
- <i>Without Retail Packaging</i>
