Product Features:

- State-of-the-art wiring design ensures 100% compatibility with all devices 100% of the time.
- The Belkin Lifetime Warranty.
- This cable has crossed null-modem wiring design.
- Uses only Windows® 95, 98 and 2000 preinstalled drivers to make the direct connection.
- Fastest data transfer for maximum performance.
- Gold plated copper connectors for a clean, clear, error-free transmission.
- Flextec® #153 cable jacket is very durable and extremely flexible for use in tight areas.
- Ground indents provide excellent conductivity and retention with mating conductors.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- Oversized ergonomic thumbscrews make installation a breeze.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- 28 AWG stranded tinned copper conductors for excellent signal transmission.
- <i>Without Retail Packaging</i>
