

OmniView Dual-Port USB KVM Cable, 3.6m - F1D9401-12

The OmniView™ ENTERPRISE Series Dual-Port USB KVM Cable provides you with the proper connection between your USB computer and your ENTERPRISE Series KVM Switch, up to 3.6m (12 feet) apart. Belkin OmniView ENTERPRISE Series Dual-Port USB KVM Cables provide maximum connectivity between your USB servers and OmniView ENTERPRISE KVM Switches. Our coaxial video cabling preserves video strength and clarity at higher resolutions, and the dual-port design delivers built-in cable management for your convenience.

Available in 1.8m and 3.6m (6- and 12-foot) lengths, this Dual-Port USB Cable works with OmniView ENTERPRISE Series KVM Switches.

Lifetime Warranty
