

High Performance Category 6 UTP Patch Cable 10M(32.8 feet) - A3L980b10M-WHTS

How does a Cat 6 patch cable affect your network? It's like when you replace one blocked pipe in your plumbing line and suddenly the flow increases, the transfer is more fluid and the whole system is improved. The RJ45 High Performance Category 6 UTP Patch Cable is the perfect performance upgrade. Used to replace any Cat 5 cable that fails to support 100 Base-T or Gigabit Ethernet. With RJ45 male-to-male connectors and a snagless molded strain relief.

Product Features:

- Internal load bar assures accurate positioning of pairs and consistent high performance.
- PowerSum tested.
- Exceeds the performance requirement of Category 6.
- Backed by Belkin Lifetime Warranty.
- Capable of improving the return loss in your current network by 40%.
- Snagless molds protect the RJ45 tap from being damaged during installation.
- 50 micron gold plated connectors to ensure a clean and clear transmission.
- Perfect in conjunction with 100 Base-T and Gigabit Ethernet networks.
