

Omniview 2-Port KVM Switch with Built-In Cabling, PS/2

This Switch provides an affordable KVM solution that saves workspace while giving you control of two PS/2 computers from one console. Its compact design with built-in cabling saves you time on installation, desktop space, and money. The Switch includes such features as mouse and keyboard emulation to ensure smooth boot up and operation, as well as hot key functionality so you can switch ports easily through simple keyboard commands. The unit supports high-quality video resolution of up to 2048x1536@65Hz through its built-in coaxial VGA cabling. Its auto-scanning functionality, LED indicators, and PC99 color connectors make operation and organization easy.
