

Ultra ATA Hard Drive Round Cable, single/dual drive, Glow-In-The-Dark, 18 inches - F2N1123b18IN-GL

Replace your old style ribbon cables with high quality rounded cables. These cables are highly flexible, allowing you to easily achieve complex drive configurations that would be impossible with stiff ribbon cables. Now your data can flow in a never-ending stream of information. Connects an internal IDE hard drive to your controller card. Required for maximum performance of Ultra ATA-66/100/133 UDMA-66/100/133 IDE drives.

Lifetime Warranty

Product Features:

- Fast data transfer, up to 133Mbps/sec
- Increase data integrity
- Compatible with all IDE hard drives
- Required for maximum performance of Ultra ATA-66/100/133 UDMA-66/100/133 drives
