

Gold Series IEEE 1284 Parallel Printer Cable (A/B) - 7.5M (25 feet) - F2A046b7.5M-GLD

The Gold Series Parallel Printer Cable attaches your IEEE 1284 printer with a Centronics 36-port to your PC with a DB25 port. Featuring 24K gold plated corrosion-proof connectors for maximum conductivity.

Lifetime Warranty

Product Features:

- Double shielded braid and foil to meet IEEE 1284 specifications, and ensure compliance with FCC requirements, reducing EMI/RFI
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission
- 18 tightly woven conductor pairs have each data line paired with a ground line to minimize cross talk, noise and other interference, ensuring error-free printing
- Ground indents provide excellent conductivity and retention with mating conductors
- Flexitec®: cable jacket is very durable and extremely flexible for use in tight areas
- Tactiite®: molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors
- Oversized ergonomic thumbscrews make installation a breeze
- Belkin Lifetime Warranty
- 24K gold plated corrosion-proof connectors for maximum conductivity with no data loss
- Tactiite®; overmold is a supple polymer designed to increase flexibility while maintaining durability
- Fastest data transfer for maximum performance (up to 10 times faster than non-compliant IEEE 1284 cables)
