

Composite Video and Audio Cables Kit

This Kit provides a complete audio video connection for your DVD, VCR, receiver, or TV. It offers good quality in both cables: RCA Audio connects your equipment for better sonic accuracy and more detailed sound, and Composite Video delivers greater level of color accuracy and sharper picture detail than standard RF Coaxial.

Options Available

AV22102qp06

Benefits

- Improves clarity with superior-grade, 99.99%-purity copper conductors
- Maintains signal integrity and 75-Ohm impedance using precision-formulated, nitrogen-injected dielectric in Composite Video Cable
- Delivers maximum bandwidth with 75-Ohm coaxial construction
- Generates better high frequencies and a more realistic stereo image using precision-formulated, polyethylene dielectric material in RCA Audio Cable
- Creates precise contact and increased durability with a split-tip centre pin and 6-cut, corrosion-resistant, 24k gold RCA connectors
- Outstanding Signal-To-Noise Ratio
- Provides maximum isolation from electromagnetic and radio frequency interference with double-shielded construction
- Isolates noise with 100%-coverage aluminum/Mylar foil shield
- Creates a second layer of protection with tinned, copper-braided or spiral shielding
- Eliminates the corrosion that is common in bare, copper-braided or spiral shielding
