

Blue Series 2-Way Video Splitter - AV24101qp

The Blue Series 2-Way Video Splitter provides high-quality separation of your TV signal from your 75-Ohm antenna or RF signal to multiple video components. Simply plug in to your antenna/cable lead, and your TV, VCR, DSS player, or cable converter box. Our superior construction ensures maximum signal transfer and accurate signal load to all outlets for brighter, more accurate colors and sharper images.

Lifetime Warranty

Product Features:

- Delivers accurate signal load to all outlets for high-quality picture
