

FireWire 6-Port hub - F5U526ukAPL-S

The latest innovation from Belkin delivers six peer-to-peer firewire ports that support data throughput of up to 400Mbps. Our new FireWire 6-Port Hub connects seamlessly with your FireWire DV camcorders, web cams, FireWire storage devices, scanners, printers and other DV-compatible multimedia devices. The hub also acts as a FireWire repeater, so you can place devices up to an additional 15 feet (4.5 meters) from other connected FireWire peripherals. Connecting devices to the hub using 6-pin to 6 pin FireWire cables enables them to draw power from the hub, for even easier setup and operation.

Product Features:

- Delivers a full range of FireWire performance at speeds of up to 100, 200 and 400Mbps- Depending on the capacity of your devices
- Supports the Open Host Controller Interface (OHCI) standard
- Provides six 6-pin Firewire ports
- Extends operation distance by up to 15 feet (4,5m) with included FireWire repeater feature
- Operates in self-powered or bus-powered modes
