

Belkin Wireless Optical USB Mouse - F8E847qeaUSB

Navigate with optical precision and wireless freedom.

Product Features:

- Adaptable Optical Technology Provides precision tracking on any surface – including a wall, your leg, or a plastic or wooden board.
- Maintenance-Free Features an embedded optical sensor that requires no cleaning, unlike a traditional mouse with a rubber-ball mechanism.
- Wireless freedom Works from up to 1.5 meter from the receiver with 800dpi precision.
- System Requirements:
• PC 486 or higher
• USB connection to PC
• Windows® 98 SE, 2000, Me, or XP
- Package Includes : • Wireless Optical USB Mouse
• Receiver
• User Guide
