

The Regulator Pro™ Gold Series - F6C525u220V

Darn power. Out again. I know there's a flashlight in this drawer somewhere. Wouldn't it be great if I could use the glow from my monitor to help find my flashlight? Wait, why is my PC powered? Oh yeah, my Regulator Pro™ UPS battery backup. I have no worries.

The 525VA Regulator Pro™ UPS battery backup with Automatic Voltage Regulation (AVR) protects against all power disturbances - including brownouts and blackouts. Features an £50,000 equipment and Data Recovery Warranty.

Características del producto:

- 525VA with up to 32 minutes of backup time so you can shut down your computer before you lose your data during a blackout.
- AVR technology is a line-conditioning feature that ensures clean and consistent power.
- £50,000 connected equipment warranty for extra assurance.
- Data Recovery Warranty because you don't want to lose any information.
- Free shutdown software and RS232 cable to automatically save programs and shutdown your computer during a blackout.
- Multiple sockets to protect PC, monitor and other peripherals.
- EcoPower™ Battery Replacement Programme.
- RJ11 and RJ45 line protection.
- 1.8metre RJ11 cable included.
- Electro Magnetic Interference/Radio Frequency Interference noise filtration.
- AC line, on battery, and replace battery LEDs for easy monitoring of your UPS.
