

DB15 Female/Female Gender Changer - F4A151

You spent all that time picking out a new device, only to get home and find out that the device and your cable have the same gender plugs. Don't fret, Belkin carries gender changers to bridge the gap between your cable and device. The DB15 Female/Female Gender Changer is used to interface two cables with the same gender. It allows two male DB15 cables, or a cable and a device, to be connected.
