Características del producto:

- 24K gold plated corrosion-proof connectors for maximum conductivity.
- Tactilite® #153; molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Flexitec® #153; cable jacket is very durable and extremely flexible for use in tight areas.
- The Belkin Lifetime Warranty.
- Tactilite® #153; overmold is a supple polymer designed to increase flexibility while maintaining durability.
- 24K gold plated copper connectors provide maximum conductivity with no data loss.
- Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
