

Universal AirFlow Hands-Free Kit - F8V920-ARF

The AirFlow Hands-Free uses a unique, hollow-tube system to send signals, dramatically reducing emissions exposure to your head and ear from your mobile phone. (Conventional hands-free systems use metal wires to deliver audio signals to the ear speaker). It features lightweight components and soft, rotating earpiece for maximum comfort and flexibility. For use with all mobile phones that feature a universal 2.5mm headset port.

Características del producto:

- Unique hollow-tube system to send signals
- Lightweight comfort flexible fit
- Lifetime Warranty
- Compatible with all mobile phones that feature a universal 2.5mm headset port
- Soft rotating earpiece for maximum comfort and flexibility
