Hi-Speed USB 2.0 Drive Bay Hub - F5U261ea

The Belkin Hi-Speed USB 2.0 4-Port Drive Bay Hub brings the convenience of four, easily reachable USB 2.0 ports to the front of your computer. It lets you easily connect your real-time devices, including video cameras and scanners, without having to reach behind your computer to find a free USB port.

The Hub supports the ultrafast speeds of the new Hi-Speed USB 2.0 specification, enabling the top performance you need for today's newest, fastest accessories. It also offers seamless compatibility with all previous version, USB 1.1 devices as well, so you can use all your equipment and upgrade when you're ready.
