

Belkin Pro Series Digital Video Interface Adapter (DVIF/MCENT20M,DVI-DFP) - F2E4211

Our DVI adapters provide a high-bandwidth video interface for the host and display devices of today, while addressing the bandwidth requirements of tomorrow. Digital Display Working Group (DDWG) Digital Visual Interface (DVI) standard guarantee to work with all digital flat panels/liquid crystal displays. No other adapter delivers better performance.

The F2E4211 is the ideal way to connect a variety of cable assemblies and adapter configurations. This adapter converts a DVI digital male plug to a DFP (MDR) plug and can adapt to any existing system that uses DFP and/or PD video I/O connector technology.

Características del producto:

- Performance-High Speed Digital Data Transmission delivers the signal faster and stronger
- Compatibility-Works with virtually any digital flat panel, liquid crystal display
- Simplicity-Quick, Hot Plug Detection. PC and Mac compatible
- Lifetime warranty
- Barrel nuts and latches make installation a breeze
- Full Undermold shield helps meet FCC requirements on EMI/RFI interference
- Gold plated copper contacts provide maximum conductivity with no data loss
