

Belkin Pro Series Digital Video Interface Cable (DVI/MICCENT20M;10' DFP) - F2E411ea10

Our DVI cable provides a high-bandwidth video interface for the host and display devices of today, while addressing the bandwidth requirements of tomorrow. Digital Display Working Group (DDWG) Digital Visual Interface (DVI) standard guarantee to work with all digital flat panels/liquid crystal displays. No other cable delivers better performance.

This cable is a DVI-Digital plug to DFP (MDR) plug and can adapt to any existing system that uses DFP and/or PD video I/O connector technology.

Características del producto:

- Performance-High Speed Digital Data Transmission delivers the signal faster and stronger than a standard monitor cable
- Compatibility-Works with virtually any digital flat panel, liquid crystal display
- Simplicity-Quick, Hot Plug Detection. PC and Mac compatible
- Lifetime warranty
- Digital signaling allows high speed digital transmission
- Full Undermold shield helps meet FCC requirements on EMI/RFI interference
- Double shielding to ensure compliance with FCC requirements
- Gold plated copper contacts provide maximum conductivity with no data loss
