

Pro Series IEEE 1284 Parallel Printer Cable (A/B) - 7.5m - F2A046b7.5M

This Pro Series Parallel Printer Cable links your IEEE 1284 printer with a Centronics 36-port to your PC with a DB25 port. Featuring our exclusive wiring design and cable technology that guarantees optimal performance and data transfer.

Características del producto:

- Links your IEEE 1284 printer with a Centronics 36-port to your PC with a DB25 port
- IEEE 1284 compliant printer cable
- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time
- 10 times faster data transfer when compared with non-compliant IEEE 1284 cables
- Belkin Lifetime Warranty
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum
- Oversized ergonomic thumbscrews make installation a breeze
- Flextrade, PVC rubberized cable jacket is extremely flexible for use in tight areas
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission
- Ground indents provide excellent conductivity and retention with mating conductors
- PVC pre-mold encapsulates individual conductors to ensure electrical isolation and relieve stress
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference
- Double shielded braid and foil to meet IEEE 1284 specifications, and ensure compliance with FCC requirements, reducing EMI/RFI
- 18 tightly woven conductor pairs have each data line paired with a ground line to minimize cross talk, noise and other interference, ensuring error-free printing
