

Gold Series SCSI System Cable - 1.2Metre(4 feet) - F2N962-04-GLD

The Micro DB50 Male to Centronics 50 Male Gold Series SCSI II (fast SCSI) Cable. Used to interface two SCSI II devices, like a scanner and a CD-ROM, wherein one has a Micro DB50 female ports and the other has a Centronics 50 female port.

Características del producto:

- 24K gold-plated corrosion-proof connectors for maximum conductivity.
- Tactilite™ molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Flextec™ cable jacket is very durable and extremely flexible for use in tight areas.
- Quality assured with the Belkin lifetime warranty.
- Tactilite™ overmold is a supple polymer designed to increase flexibility while maintaining durability.
- 24K gold plated copper connectors provide maximum conductivity with no data loss.
- Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
