

## Male Pro Series External SCSI II (Fast SCSI) Cable - 1.8Metre(6 feet) - F2N966-06

The DB50 Male to DB50 Male Pro Series SCSI II (fast SCSI) cable is used to interface any two SCSI III devices, such as a scanner and a CD-ROM drive, both with DB50 female ports.

### Características del producto:

- Ground indents provide excellent conductivity and retention with mating connector.
- Aluminum undermold shield helps meet FCC requirements.
- Flextec®153; PVC rubberized cable jacket is extremely flexible for use in tight areas.
- PVC premold encapsulates individual conductors to eliminate stress.
- Gold plated copper contacts for a clean, clear transmission.
- State-of-the-art wiring design ensures 100% compatibility.
- 25 or 34 tightly woven conductor pairs ensures that each data line is paired with a ground line to minimize interference, ensuring error-free data transmissions.
- The Belkin full lifetime warranty.
- Low-capacitance impedance matched 28 AWG stranded tinned copper are individually insulated in polypropylene.
- Double shielded (braid and foil) to meet SCSI specifications and ensure compliance with FCC requirements, reducing EM/RFI interference.
- Rated for SCSI II applications.
