

Gold Series VGA Monitor Extension Cable - 3m(10 feet) - F2N025-10-GLD

Extends the length of an existing Super VGA monitor cable with high-density DB15 connectors. Featuring 24K gold plated corrosion-proof connectors for maximum conductivity.

©2010 Belkin Corporation

Características del producto:

- 24K gold plated corrosion-proof connectors for maximum conductivity.
- Tactile strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Flex-tec cable jacket is very durable and extremely flexible for use in tight areas.
- Quality assured with the Belkin lifetime warranty.
- Tactile overmold is a supple polymer designed to increase flexibility while maintaining durability.
- 24K gold plated copper contacts provide maximum conductivity with no data loss.
- Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC pre-mold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- Low capacitance impedance matched 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- NOTE: Will only work on monitors smaller than 17 inches.
