

## Pro Series Centronics Parallel Extension Cable - 1.8m - F2E021-06

The Centronics Male/Female Parallel Extension Cable is used to extend the length of a Centronics Parallel Cable.

### Características del producto:

- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- Oversized ergonomic thumbscrews make installation a breeze.
- Belkin Certified Lifetime Warranty.
- Flextec®; PVC rubberized cable jacket is extremely flexible for use in tight areas.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
