

IEEE 1394 FireWire® Compatible Cable (4-pin/4-pin) - 1.8 metre (6 foot) - F3N402ea06-ICE

A bolt of information shoots through your Belkin FireWire® cable to your PC. Now your digital camcorder is interfacing with your computer like never before. Finally, a high-speed serial bus that bridges the world of consumer electronics and computers.

The IEEE 1394 FireWire® compatible cable attaches a device, like a digital camcorder (4-pin port), to your computer (4-pin port) at a transmission rate of up to 400Mbps. Compatible with all Apple FireWire® and Sony i.LINK® devices.

©2000 Belkin Components

Características del producto:

- Up to 400 Mb/seg High Speed Data transmission.
- Quad shielding (S-400 specification) ensures maximum speed with no data loss.
- Apple® i174; FireWire® i174; and Sony i.LINK® i174; compatible.
- Plug and Play Technology.
- Lifetime Warranty.
- HotPluggable.
- Twisted pair construction for extreme velocity data transfer rates.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmissions.
- Available in all the colors of the iMac® i174; computer family.
- Outer shield and inner shield (foil and braid) ensures compliance with the latest IEEE 1394 standards, which reduces radio frequency and electro-magnetic interference.
- Macintosh® i174; and Windows® i174; compatible.
