

Belkin Regulator Pro™ Silver Series UPS - F6C500uSER-SB

The Regulator Pro™ Silver Series truly represents the state-of-the-art in power protection. Combining the critical protection of an Uninterruptible Power Supply (UPS) and the versatility of a true surge protector in one convenient unit, the Silver Series is the popular power protection choice for today's small office or home office user. The shutdown software instantly saves and closes all open programs and files when a power outage strikes. The 500VA Regulator Pro™ Silver Series puts an end to concerns about surges, spikes, blackouts and even lightning strikes. Features a £30,000 connected equipment warranty and a Data Recovery Warranty.
