

Pro Series IEEE 1284 Parallel Switchbox Cable - 3m - F2A047b10

This IEEE 1284 compliant Pro Series Parallel Switchbox Cable connects a PC to a manual or automatic switchbox. Featuring our exclusive wiring design and cable technology that guarantees optimal performance and data transfer.

Características del producto:

- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- IEEE 1284 compliant printer cable.
- Oversized ergonomic thumbscrews make installation a breeze.
- Flextec® PVC rubberized cable jacket is extremely flexible for use in tight areas.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Double shielded braid and foil to meet IEEE 1284 specifications; and ensure compliance with FCC requirements; reducing EMI/RFI.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- A Belkin Certified Lifetime Warranty.
- Ten times faster data transfer when compared with non-compliant IEEE 1284 cables.
- Quality assured with the Belkin Lifetime Warranty.
- 24K gold plated copper connectors provide maximum conductivity with no data loss.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
- 18 tightly woven conductor pairs have each data line paired with a ground line to minimize cross talk; noise and other interference; ensuring error-free printing.
