

## Pro Series Centronics Parallel Switchbox Cable - 3m - F2E020b10

You just purchased a new switchbox, but faulty wiring is causing your switchbox to send error filled data to your printers. With this Belkin Parallel Switchbox Cable your new switchbox will be sending pure, clean data.

The Centronics Parallel Switchbox Cables are used in applications with Centronics 36 female switchboxes or automatic printer sharing devices. Not recommended for direct use between PCs and printers.

### Características del producto:

- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- Oversized ergonomic thumbscrews make installation a breeze.
- Flexitec® PVC rubberized Cable jacket is extremely flexible for use in tight areas.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- Belkin lifetime warranty.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission.
- <i>Without Retail Packaging</i>
