

Pro Series AT Serial Modem Cable - 3metre(10 foot) - F2L088b10

You've purchased the modem of your dreams, but faulty wiring keeps sending it error filled data. A Belkin Pro Series Serial Modem cable will keep those dream machines error free.
Attach virtually any existing external modem with a DB25 female serial port to the serial DB9 port on your computer. Featuring oversized ergonomic thumbscrews for easy installation.

Características del producto:

- 24K gold plated copper connectors provide maximum conductivity with no data loss. Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Quality assured with the Belkin Lifetime Warranty.
- Molded strain relief ensures a lifetime of error-free data transfer.
- Gold plated copper contacts provide maximum conductivity with no data loss.
- Flexitec® cable jacket is very durable and extremely flexible for use in tight areas.
- Ground indentis provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Without Retail Packaging
