

## Gold Series AT Serial Modem Cable - 3metre(10 foot) - F2L088-10-GLD

Gold is one of the most sought after metals in the world. So we have added this precious metal to our top-of-the-line GOLD Series serial cable, making it the fastest serial modem data transfer available. Attach virtually any existing external modem with a female DB25 serial port to the DB9 serial port on your PC. Featuring 24K gold-plated connectors for error free data transmission.

### Características del producto:

- 24K gold-plated corrosion-proof connectors for maximum conductivity.
- Tactiite&trade; molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Flextec&trade; cable jacket is very durable and extremely flexible for use in tight areas.
- Quality assured with the Belkin Lifetime Warranty.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Tactiite&trade; overmold is a supple polymer designed to increase flexibility while maintaining durability.
- 24K gold plated copper connectors provide maximum conductivity with no data loss.
- Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Ground indents provide excellent conductivity and retention with mating connectors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
