

Pro Series External SCSI II (Fast SCSI) Cable - 3.6Metre(12 feet) - F2N968-12

The Micro DB50 Male to Micro DB50 Male Pro Series SCSI II (fast SCSI) Cable is used to interface any two SCSI I/II devices, such as scanners, CD-ROM drives and more, with Micro DB50 female ports.

Características del producto:

- The Belkin Lifetime Warranty.
- Rated for SCSI II applications.
- Double shielded (braid and foil) to meet SCSI specifications and ensure compliance with FCC requirements reducing EMI/RFI interference.
- Low-capacitance impedance matched 28 AWG stranded tinned copper are individually insulated in polypropylene.
- 25 or 34 tightly woven conductor pairs ensures that each data line is paired with a ground line to minimize interference, ensuring error-free data transmissions.
- State-of-the-art wiring design ensures 100% compatibility.
- Gold plated copper contacts for a clean, clear transmission.
- PVC pre-mold encapsulates individual conductors to eliminate stress.
- Flextech®153: PVC rubberized cable jacket is extremely flexible for use in tight areas.
- Aluminum undermold shield helps meet FCC requirements.
- Ground indents provide excellent conductivity and retention with mating connector.
