Características del producto:

- Rated for SCSI III applications.
- Double shielded (braid and foil) to meet SCSI specifications and ensure compliance with FCC requirements reducing EMI/RFI interference.
- Low-capacitance impedance matched 28 AWG stranded tinned copper are individually insulated in polypropylene.
- Full lifetime warranty.
- Thumbscrews enable easy installation.
- 25 tightly woven conductor pairs ensures that each data line is paired with a ground line to minimize interference ensuring error-free data transmissions.
- State-of-the-art wiring design ensures 100% compatibility.
- Gold plated copper contacts for a clean clear transmission.
- PVC premold encapsulates individual conductors to eliminate stress.
- Aluminum undermold shield helps meet FCC requirements.
- Ground indents provide excellent conductivity and retention with mating connector.
