

Multi-Network Cable Tester - F4F315-T

Checks for both continuity and pair integrity. The tester works with shielded, unshielded twisted pairs, and RG58 coaxial cables. Includes a remote unit that allows for field-testing of an entire cable channel.

Características del producto:

- Tests UTP, STP, and coaxial cables.
- Checks cable for continuity.
- Indicates pair integrity of the cable.
- Remote unit allows pair mapping of entire channel.
