

Mini-Wireless Optical Mouse - F8E25eaUSB

This Mini-Wireless Optical Mouse from Belkin provides a great Radio Frequency (RF) wireless transmission solution for the mobile professional. Take it on the road easily, and use it optical precision on virtually any surface - anywhere you use your laptop. Using optical technology, the Mini-Wireless tracks every motion with digital accuracy. It also moves and packs easily, and does away with the need for cleaning and maintenance required by any ordinary mouse. The greatest advantage of this innovation might be its ease of wireless operation, which frees you from plugging in and from only using your mouse within a restricted space. The Belkin Mini-Wireless Optical Mouse works on your notebook computer from as far as 91 cm away.
