

Dock Adapter for iPod shuffle

This essential add-on for the iPod shuffle lets you connect iPod accessories with the Dock Connector through the shuffle's USB port. The Dock Adapter for iPod shuffle gives your shuffle the flexibility to work with such enhancements for iPod as battery packs, mobile power cords, iPod speakers, and USB/FireWire cables that have the Dock Connector.

Note: Requires 5V+ of USB power to charge your iPod shuffle. Compatible with power and audio accessories only. iPod photo accessories and car integration kits are not compatible with the Dock Adapter for iPod shuffle.

*Will not sync when used with a FireWire cable. However, power and audio will be compatible

Benefits

- Charges your shuffle using your Dock Connector's power cord
- Works with any Belkin TuneBaseT
- Provides pass-through audio
