Wireless Pre-N Router - F5D8230es4

El sustituto de este producto es el artículo nº F5D9230ef4

Now you can share your broadband Internet connection farther and faster than ever before with Belkin Wireless Pre-N. It uses revolutionary smart antenna technology to boost wireless network speed and range far beyond that of today's standard 802.11b/g and 802.11a wireless networking technologies. This technology is perfect for larger homes or offices that have a wide area to cover and want to run multimedia and high bandwidth applications reliability.

With the Belkin Wireless Pre-N Router as the central network connection point, your connected computers are able to share a broadband Internet connection and networked peripherals such as hard drives, printers, CD-ROMs, and DVD players. An integrated, 4-port 10/100Base-T Ethernet switch also allows you to connect wired computers to the network.

To maximize your network's security the Belkin Wireless Pre-N Router offers advanced Wi-Fi Protected Access (WPA) support that provides enhanced encryption to protect your wireless network. Stateful Packet Inspection (SPI) and Network Address Translation (NAT) doubles your firewall and safeguards your network from Internet intruders. VPN tunnel pass-through provides secure Internet connections to your office. Built-in Parental Control/Web Content Filter provides over 50 fully configurable filters that allow you to block websites and images.

Fully functional DHCP Server included - Automatically assigns an IP address to client computers that connect to the Router, and completely configurable to suit home and corporate LAN ranges. The DHCP server can be turned off so that you can manually set a Static IP address in each computer on your network if required.

Is designed to work with an modem that uses an Ethernet connection. Not suitable for use with a modem that connects to a PC via a USB connection

Características del producto:

- 8x greater coverage than standard 802.11g - Belkin Pre-N provides the industry's best wireless coverage, extending your range with improved reliability and fewer drops.
- 6x greater speeds than standard 802.11g - Belkin Pre-N provides the industry's fastest wireless connection for gaming, streaming video, Voice over IP, and moving large files efficiently and quickly between all the devices in your networked home.
- Improved performance of standard 802.11g and 802.11b networking devices - Using a Belkin Pre-N Router or Card with an older 802.11g or 802.11b networking product increases wireless coverage up to 20%
- Improved resistance to wireless interference - Belkin Pre-N products sense potential interference and dynamically shift to the clearest wireless channel available.
- Belkin Pre-N products do not drop to the lowest networking speed in a mixed-mode environment - If a standard 802.11g or 802.11b device is introduced into a Belkin Pre-N network.
- The Belkin Pre-N product will not drop to the standard 802.11g or 802.11b speeds - Belkin Pre-N products will continue to transmit at a link rate of 108Mbps, a result competing products cannot achieve.
- Advanced Security - Wi-Fi® Protected Access (WPA) support provides enhanced encryption protecting your wireless network.
- Pop-up Blocker - 6 months of free pop-up, adware, and spyware stopper.
- Web Content/Parental Control Filter - Web Content/Parental Control Filter 6 months of free built-in parental Control/Web Content Filter provides over 50 fully configurable filters that allow you to block websites and images
