

Bluetooth™ USB Adapter - 100 metres

Now you can add Bluetooth wireless capabilities to your USB desktop or notebook computer. The Adapter is ideal for home or mobile use. It allows your computer to make cable-free connections to other Bluetooth devices quickly, without having to establish a networking infrastructure. Simply plug the Adapter into the USB port of your computer and connect to your cell phones, printers, PDAs, or other computers enabled with Bluetooth technology. Then wirelessly access the internet and your email, print documents, transfer files and contact information, and more. The Adapter uses advanced technologies - Bluetooth standard v2.0 +EDR and USB 2.0 - to provide you with quicker connection times, enhanced voice and multimedia quality, greater Wi-Fi environments, and up to three-times-faster data-transfer speeds.

The new driver includes support of the Voice over IP profile, enabling you to seamlessly call over the Internet.
