

High Speed Internet Modem Cable, 9.1m (30 feet) - CC3012auk30

The Belkin High Speed Modem Cable is guaranteed to give you the fastest Internet access possible with data transmission speeds of up to 100Mbps. Our High Speed Modem Cable features Signal Exact Twist® technology, Category 5 cable construction and 24K Gold Plated contacts, which allows your modem to achieve maximum performance. When compared to regular phone cables, our Internet Modem Cable delivers a signal 10 times faster and stronger than the standard cable.

Product Features:

- Up to 10 times faster data transmission
- Gold Plated Copper Contacts - provide maximum conductivity with no data loss
- Category 5 Structured Cable - transmits data up to 100Mbps per second.
- Signal Exact Twist® technology - maintain signal integrity and prevent Radio Frequency noise and interference.
- Lifetime Warranty
- Flextec® PVC Rubberized Cable Jacket - provides added durability, yet flexible enough for use in tight areas.
- Snagless Molded Strain Relief - provides added strength with flexibility even under extreme conditions, also protects effectively against damage to RJ11 tab.
- RJ11 Plug/ BT Plug
- Availability in lengths of 2.1m, 4.5m and 9.1m (7, 15 and 30 feet)
