

Signature Series USB 2.0 Extension Cable - USB-A-USB-A, 10 feet (3M) - CU1100vuk10-G

Signature Series by Belkin offers the latest in connectivity solutions. Developed with a focus on premium quality and reliability of data transmission, Signature Series cables combine the highest quality materials available with an outstanding and user-friendly design. These cables represent more than 20 years of cable manufacturing and as such fully deserve their name.

With the Signature Series USB 2.0 Extension Cable, you can extend the operating distance of any USB device including printers, scanners, MP3 players, MediaReaders, cameras, hubs and more.

Product Features:

- Asymmetrical cable design Bends easier for better installation in tight corners
- LED indicators indicate that the cable is operational and your USB port is functional
- Free cable management clip keeps your cables organized and allows you to identify the cables quickly
- Belkin Lifetime warranty
- Gold plated connectors and contacts provide maximum conductivity and prevent corrosion
- Twisted pair cable construction supports high-speed data transfer up to 480 Mbps
- Aluminium and tinned copper shields reduce cross talk and RF/EM interference
- Moulded strain relief bends easily for greater flexibility and durability
- Easy-grip connectors makes attaching your USB equipment a breeze
