

18AWG Speaker Wire with Pins 200 Metres

High-Performance 18 Gauge Speaker Cable with Precision-Formulated Polyethylene Dielectric Material for High-Accuracy and Natural Sound Quality. Using advanced engineering methods and the highest-quality materials, PureAV Speaker Cables deliver the purest audio solution available. Ordinary speaker cables sacrifice performance by using lower-grade materials, including steel or low-purity copper conductors. This can result in signal loss that causes poor high-frequency reproduction, and sound that is not truly accurate. PureAV's speaker cables use polyethylene dielectrics to maintain signal strength over longer distances. Eighteen-gauge speaker cable is the recommended minimum gauge for smooth sound reproduction. The longer the cable length and the larger the amp, the heavier the gauge required.

Benefits

- Delivers better audio clarity and a more natural sounding midrange with superior-grade, 99.99%-purity copper conductors
- Generates better high frequencies and a more realistic stereo image using precision-formulated polyethylene dielectric material
- Creates precise contact and increased durability with 4 corrosion-resistant, 24k gold speaker pins
- Colour: Clear
- Belkin Lifetime Product Warranty

Product Code

AV23002qp200M

Product Name

18AWG Speaker Wire with Pins 200 Metres
