

PureAV™ Scart To RCA Cable 16'

Standard oxygen-free copper (OFC) contains hundreds of individual copper crystals per inch, which can negatively affect signals as they pass from one crystal to another. PureAV's PCOCC process creates a single copper crystal with exceptional transmission properties.

Benefits

- 24k gold-plated connectors create precise contact for low loss
- Precision-formulated polyethylene dielectric materials maintain stronger signals that yield superior colour accuracy and clarity
- 99.9997% oxygen-free PCOCC conductors and high-purity silver solder joints drastically reduce signal distortion for unrivalled image and audio clarity
- Silver-plated conductors, deliver best high-frequency response for optimal resolution
- Integrated strain relief, protects against wire damage for consistently high-quality audio and video
- Non-slip rubber grip provides comfort and ease of install
- Abrasion-resistant, flexible PVC jacket - maintains integrity, even when bent
- True 75-Ohm impedance distributes a consistent, accurate picture by providing maximum bandwidth
- Triple shielding isolates from outside noise for superior clarity using: Carbon filled PVC shield, 100%-coverage aluminium/Mylar foil shield, High-coverage, tinned, copper-braided shield
- Belkin Lifetime Product Warranty
