

## OmniView SMB CAT5 16-Port - F1DP116Aea

Belkin offers the only SMB KVM switch that provides easy and dependable multiplatform server control-the OmniView SMB CAT5 KVM Switch. Built to deliver extraordinary price and performance, this Switch provides centralized control of medium-sized server environments in data centres, computer labs and branch offices. Available in 4-, 8-, and 16-port 1U rack-mount models OmniView SMB CAT5 KVM Switches can be daisy-chained together easily to enable management of up to 256 PS/2, USB and Sun servers from a single PS/2 console. The combination of Belkin's integrated CAT5 technology and compact Server Interface Modules simplify deployment and deliver highest stability and server uptime. The OmniView SMB CAT5 KVM product family delivers functionality you would expect to find only in an enterprise-class solution.

### Product Features:

- Reduces wiring clutter while supporting distances of up to 100 ft. (30m) with standard CAT5 cabling
- Allows for continuous server monitoring with programmable AutoScan
