

FireWire 800 ExpressCard™ - F5U514ea

Why ExpressCard? ExpressCard, the new standard destined to replace CardBus, effectively quadruples the amount of available computing bandwidth. This results in faster music downloads, smoother streaming video, and lightning-fast access to mass-storage devices.

The Belkin FireWire 800 ExpressCard offers the perfect solution for users who want to add a fast FireWire port to their notebook computer. The Card is designed to take advantage of the additional bandwidth and features provided by the new ExpressCard I/O interconnection standard. Now you can stream movies and download video from your camcorder to your hard drive simultaneously-without worrying that your computer will freeze, crash, or slow down to a trickle. The ExpressCard future-proofs your notebook computer with technology so advanced that it exceeds the processing-speed capability of many devices currently on the market. Installing the ExpressCard now will give you device-upgrade expansion room for many years to come.

Product Features:

- Connects FireWire devices to your notebook computer
- Installs easily into any 34mm or 54mm ExpressCard bus* slot
- Future-proofs your notebook computer for tomorrow's bandwidth-intensive applications

System Requirements:

- Windows®-based notebook computer with available ExpressCard slot->Windows 2000, XP, 2003 Server->Mac OS X 10 and above
