

USB 2.0 Direct Connect - F5U254ea

The Belkin USB 2.0 Direct Connect is the easiest way to create a high-speed network between 2 computers. It connects through USB 2.0, so is completely Plug-and-Play! The Direct Connect is ideal for sharing files and printers, synchronizing files between your notebook and desktop, or transferring information from your old PC to a new PC*.

*Not compatible with Windows Vista
