

Network USB Hub

The industry's first reliable print server—3 minute setup

Wireless access to multi-function printers, digital cameras, external hard drives and other USB devices

Benefits

- Connect and access up to 5 USB devices via the Network USB Hub
- Up to 15 devices can be connected using (an) additional multi-port USB hub(s)
- Share devices such as multifunction printers, media readers, and scanners with anyone on your network
- Play and transfer music from any external harddrive or MP3 player connected to the Network USB Hub
- Back up to and access data from external harddrives, USB flash drives, and other USB storage devices
- Reliable and easy-to-use print server: the Network USB Hub enables your computer to access printers as if they are directly attached to the computer
- Works with any (wired or wireless) router; devices can be accessed from any computer on the network*
